PT. **WAHANA**
SATRIA ABADI

INTRODUCTION

PT. Wahana Satria Abadi is the sole distributor of LIEBHERR display freezers and chest freezers in Indonesia. We have been involved in the commercial refrigeration industry for more than 20 years and we have been supplying our products and services to some of the biggest ice cream manufacturer, restaurants, cafes and bakeries in Indonesia.

LIEBHERR GROUP itself was established in 1949 in Germany by Hans Liebherr. Today LIEBHERR is not only one of the worlds leading manufacturers of construction machinery but is also an acknowledged supplier of technically innovative user-oriented products and services in numerous other fields. LIEBHERR has many different products such as tower crane, truck crane, hydraulic excavator, dumper truck, hydraulic rope excavator, wheeled loader, crawler tractor and loader, landing gear for planes and commercial refrigeration.¹

PT. Wahana Satria Abadi also specialized in other commercial refrigeration products such as kitchen stainless-steel refrigerator and freezer, refrigerated cake showcase, upright cooler showcase, blast freezer, coldpack, cold drink dispensers, refrigerated trucks, cold room and cold storage.

MISSION

In choosing products we sell, PT. Wahana Satria Abadi has quality standard that has to be fulfilled by the products. We prefer to sell high quality products with reasonable price which give benefit to our customers in the long term. Liebherr, StarCool, IARP, Perfect Freeze and Promek are some of the quality brands that we sell at PT. Wahana Satria Abadi. We are located in Tangerang not far from the heart of Jakarta and we are able to deliver our products to our customer timely. Our service networks also located in all major cities in Indonesia.

MISSION STATEMENT

”to become the best commercial refrigeration company in Indonesia by providing the best value for money products and services.”

GREAT REASONS TO CHOOSE **LIEBHERR**

CATALOGUE

2022/2023

LIEBHERR

HIGHEST PERFORMANCE

Liebherr freezers for the frozen food and ice-cream industries provide full refrigerating capacity even in extreme climate conditions. The use of ultra-modern components, efficient and environmentally friendly refrigerants as well as precision controls ensure that product quality and freshness is preserved-and the appliances are always efficient.

EFFICIENCY

Liebherr freezers operate extremely economically: highly efficient compressors, a precision electronic control system as well as highly effective insulation ensure low power consumption and low operating costs. The high quality of the virtually maintenance-free and service-friendly appliances guarantees long life and reliable operation.

EASY CLEANING

Hygiene plays an especially important role in the commercial sector. That is why Liebherr upright freezers are equipped with moulded inner liners with large radii that are easy to clean. Height-adjustable wire shelves enable individual adaptation to different packaging types or products.

ROBUST QUALITY

Liebherr appliances are specially constructed for intensive professional use and feature a very sturdy design - with highest- quality materials and perfect workmanship right down to the smallest detail. The quality of the appliances is ensured by elaborate tests. All electronic and refrigeration components are well-balanced to ensure maximum functionality and efficiency-including an attractive design.

PRODUCT PRESENTATION

Attractive product presentation is the best sales support at the point of sale. In Liebherr freezers products are always stored optimally, are within easy reach and stimulate buying. Large, smooth-running sliding glass lids as well as effective interior lighting enable perfect product display. Excellent product visibility is ensured by the high load line height. Sturdy baskets and adjustable shelves allow perfect adaptation of the storage space to the products stored.

EASY SERVICING

Liebherr freezers are designed for easy servicing: the generously radiused corners on the moulded inner liners as well as easily removable shelves enable perfect hygiene and save a lot of time. In addition, Liebherr appliances are virtually maintenance-free and very easy to use thanks to their sophisticated concept. All components requiring regular servicing are designed for easy access.

LIEBHERR

WINE COOLER FEATURES

ACTIVATED CHARCOAL FILTER

Environmental odours can affect wines stored for longer periods. In the wine cabinets, perfect air quality is ensured through an activated charcoal filter.

WINE DRAWER

Easy to store and take-out your wine selection in your cabinet.

IDEAL HUMIDITY

Maintaining the proper humidity is an important aspect for the storage of wines. In this way, corks remain supple and do not dry out. Wine should be stored in a horizontal position to keep the corks moist from the inside. With over 50 % air humidity, wine cabinets guarantee the perfect conditions.

INSULATED GLASS DOOR

Wine bottles are in most cases tinted because UV light has a damaging effect on wine maturation. However, the bottles alone are insufficient protection. In order to minimise the exposure to radiation, Liebherr wine cabinets feature special UV-resistant glass. In this way, stocks of wine can be protected and simultaneously stylishly showcased.

PRICE AFFORDABILITY

Starcool products are very affordable and suitable for businesses that are just starting up or have limited resources to spend on refrigeration equipment. The belief behind Starcool brand is value for money, the brand is giving customers the best value commercial refrigeration products for entry-level pricing.

FLEXIBILITY ON IMPROVEMENT

Customers' feedbacks are certainly appreciated to make Starcool products better in every aspect. Starcool is supported by many excellent and reliable manufacturers that are flexible enough to make any adjustment to suit customers' needs.

QUALITY CONTROL

Although pricing of Starcool products is very competitive, quality is routinely controlled on every shipment. Quality is evaluated and reviewed, if a manufacturer does not meet a certain degree of quality then products from that manufacturer will be stopped. Maintaining a good relationship with dependable manufacturers as well as continuous quality evaluation ensure Starcool quality is not compromised.

VAST RANGE OF PRODUCTS

Starcool product range is expanding year by year, customers' needs in many different fields in the food industry are changing and Starcool is following that trend. Starcool brand in the market is becoming the leader of product innovations with affordable and competitive price.

CONSISTENT PRODUCT RANGE AND QUALITY

The problem with other just cheap products are inconsistent product range and quality. Starcool is not just any other brand. Starcool brand always strive to preserve consistent product range for customers and consistent product quality, this is why good relationship with dependable manufacturers combined with continuous quality evaluation are important.

GREAT REASONS TO CHOOSE

MADE IN ITALY

Promek products are exclusively made in Italy. Nothing can beat the quality of European design, technology and manufacturing process. As Aristotle once said, quality is not an act, it is a habit. Promek's quality need not to be questioned, it is one of the best cold beverage dispenser.

USAGE BY MANY CHAIN RESTAURANTS IN INDONESIA

Chain restaurants are renowned of their busyness, operation and success. Promek products has been used and still being used by many chain restaurants in Indonesia. This confirms that Promek is proven that even in the busiest cafe or restaurant, Promek is still have excellent reliability, dependability and superiority. Refrigerants as well as precision controls ensure that product quality and freshness is preserved and the appliances are always efficient.
